Measure Concepts

Blood Pressure Screening

Zoster Immunization

BP Screening Measure

Measure Description/ Definition:	Percentage of patients > 18 years with documented blood pressure screening
Rationale:	Blood pressure measurement can identify adults at increased risk for cardiovascular disease due to high blood pressure
Data Source:	Pharmacy claims data Pharmacy patient care charts Pharmacy and Patient Self-Report via Survey
Denominator Description:	Number of patients > 18 years of age in the pharmacy database
Numerator Description:	Number of patients > 18 years of age in the pharmacy database with a documented blood pressure screening during a one year observation period

Zoster Immunization Measure

Measure Description/ Definition:	% of patients 60 years of age and older who have received a zoster vaccine directly from the pharmacy
Rationale:	Minimize likelihood of infection with herpes zoster; adults \geq 60 years target group
Data Source:	Pharmacy claims data Pharmacy prescription database Pharmacy self-report
Denominator Description:	Number of pharmacy patients who are at least 60 years of age
Numerator Description:	Number of pharmacy patients who have received a herpes zoster vaccine in their lifetime
