

OPTIMIZING HEALTH BY
ADVANCING THE QUALITY
OF MEDICATION USE

PHARMACY QUALITY ALLIANCE | 5911 KINGSTOWNE VILLAGE PARKWAY | SUITE 130 | ALEXANDRIA, VIRGINIA 22315

PQA Outreach & Grand Rounds Training

For many of our members, PQA staff joins your team on site to share and discuss the current trends in the quality landscape or specific therapeutic or practice topics with broad-based organization teams in a tailored and customized approach. This on-site visit can also include a quality team or pharmacy management meeting.

The goal of these “Grand Rounds” training sessions is to promote the use and impact of PQA measures and other healthcare quality topics to the audiences which are either directly or indirectly impacted by medication use measures and quality measurement.

Previous topics and ideas for topics have included:

- Impacting Medication Use through Measurement, Interventions and New Value-based Models
- Using Actionable, Performance-based Data to Inform Value-based Models of Care
- Understanding the Changing Value-based Landscape
- Enhancing Patient Care Through Meaningful Integrated Team-based Models
- MACRA, MIPS, Measurement & More: Understanding how legislation will impact your organization

For more information or to schedule your PQA Grand Rounds training, contact
