Opportunities to sponsor PQA meetings
PQA, the Pharmacy Quality Alliance, is a national quality organization dedicated to improving medication safety, adherence and appropriate use. A measure developer, researcher, educator and convener, PQA’s quality initiatives support better medication use and high-quality care.

A non-profit, non-governmental organization, PQA represents the spectrum of health care leaders involved in prescription drug coverage, medication use, medication services and quality improvement. Nearly 240 diverse member organizations, including pharmacies, health plans, health care providers, pharmacy benefit managers, biopharmaceutical companies, technology vendors, government agencies, associations, health information technology organizations, researchers, accrediting organizations and academia. PQA’s work is patient-centered and includes participation from individuals with relevant lived experience.

PQA’s membership represents:
- More than 100 million lives covered by member health plans, pharmacy benefit managers, and healthcare payers
- Tens of thousands of community pharmacies throughout North America
- Nearly 15 of the top global life science organizations
- Over 50 innovative health technology developers delivering today’s and cultivating tomorrow’s healthcare solutions
- Nearly 50 academic institutions representing a variety of healthcare professional programs
- Countless pharmacists, physicians, healthcare providers, thought leaders, experts, decision makers, and quality stakeholders

PQA was established in 2006 as a public-private partnership with the Centers for Medicare and Medicaid Services (CMS) shortly after the implementation of the Medicare Part D Prescription Drug Benefit. PQA was created because there were no organizations or national programs focused on quality improvement for prescription drug programs. PQA develops medication-focused performance measures through a consensus-based, multi-stakeholder process.

Five PQA measures are included in the Medicare Part D Star Ratings program. Fifteen PQA measures are used across CMS’ quality programs and more are used in state and regional quality programs.

This prospectus includes opportunities to sponsor the PQA Annual Meeting and the PQA Leadership Summit.

Market exposure, branding opportunities, and lead generation abound at PQA convening programs and PQA events. PQA’s programs are the most concentrated and diverse gathering of influencers and decision makers across sectors in medication use quality.

Through PQA, from health plans, health systems, pharmacy benefit managers, community pharmacy organizations, technology vendors, healthcare associations, government agencies and researchers. There is no other place where these leaders gather to build business and pursue shared goals.

—2023 PQA Annual Meeting sponsor
The PQA Leadership Summit convenes thought leaders, key decision makers and quality stakeholders to interactively and collaboratively strategize on the development of medication use measures to address gaps in care, as well as discuss the many issues affecting quality measures. More than 200 attendees from PQA’s diverse membership attend to help shape the coming year’s initiatives and collaborations to ensure the continued success and advancement of meaningful and actionable performance measures that can help improve patients’ health. Thought leaders from PQA’s stakeholder organizations cover a myriad of issues via interactive breakout sessions that provide attendees with valuable and actionable strategies.

**Audience:** The PQA Leadership Summit is an invitation-only event for member organization leaders from the director level and above.

**Format:** Typically a “roll up your sleeves” meeting with keynotes, discussion panels, collaborative activities, networking opportunities and receptions.

**2024:** The 2023 PQA Leadership Summit was focused on measure modernization and PQA’s role in the national effort to advance and align measures across providers and value-based programs. Measurement must evolve to keep pace with our rapidly changing health care environment. We need high-impact measures that address key health areas, are person-centered and focused on outcomes and equity. At the same time, we must mitigate measurement burden and move towards digital measures that leverage high-quality, robust and interoperable data. PQA members learned about and provided input on the priorities, opportunities and barriers to addressing each of these important areas.

“A first-class agenda delivering high-quality content and providing numerous opportunities to collaborate with other attendees.” – Leadership Summit attendee
Maximize your exposure with thought leaders, key decision makers and quality stakeholders as they discuss collaborative strategies at the 2024 PQA Leadership Summit to address the day’s leading healthcare and quality improvement issues.
